OBJECTIVE

I am a high school graduate passionate about technology with hands-on experience in coding and problem-solving through high school courses, a bootcamp, and an internship. Prepared for college and the evolving tech industry, I look forward to specializing in artificial intelligence at the University of Cincinnati.

EDUCATION

Trinity International College - Dillibazar, Kathmandu   **2022 - 2024**
- Grade 11 - 12 Graduated in Computer Science | GPA:3.7/4.0
- Courses: Physics, Chemistry, Math, Computer Science, English, and Nepali

Meridian International School - Baluwatar, Kathmandu   **2016 - 2022**
- Grade: 6 - 10 | GPA:3.5/4.0
- Courses: Science, Compulsory Math, Computer Science, EPH, Social Studies, Optional Math,
- English, Nepali

PROFESSIONAL DEVELOPMENT

Software Engineering Bootcamp - Level Up   **June 10 2024 – August 16 2024**

- Successfully completed a Software Engineering Bootcamp focused on core web development concepts.
- Gained hands-on experience with technologies such as HTML, CSS, JavaScript, Python, Git, Linux-Scripting, and Databases.
- Demonstrated strong problem-solving skills and practical application of technical knowledge through project-based learning.

Software Development Intern - Insight Workshop   **August 16 2024 - Present**

- Contributed to an EdTech product, Learn with Spark: Worked on developing and enhancing features for the platform, which offers supplemental educational content for high school students.

- Actively participated in software design meetings: Collaborated with team members to discuss technical solutions, identify and fix bugs, and implement new features under the guidance of technical leads.

- Gained valuable real-world experience: Built core technical skills in web development while gaining firsthand knowledge of how software products are designed, developed, and maintained in a professional environment.

SKILLS

Technical Skills	Soft Skills
HTML, CSS, Python, JavaScript, PHP, SQL, C, Git, Linux Microsoft PowerPoint, Microsoft Word.	Problem-solving, Team collaboration, Time management Demonstrated as basketball team captain, leading team to multiple victories

PROJECT

Portfolio Website
- Independently designed and deployed a personal portfolio to showcase projects and technical skills using HTML, CSS, and JavaScript, Demo (Link)

Languages: English, Nepali (Native), Hindi

ECAS: Basketball Team Captain, Table Tennis (Silver medalist in intra college competition), Community Service
